

NEW and AVAILABLE NOW!

TO ASSIST SHOOTERS USING AN ANSCHUTZ 1903 TARGET RIFLE.

Do you struggle when preparing the Match 64 bolt for use?

THE SOLUTION IS NOW AVAILABLE : a BOLT KEY

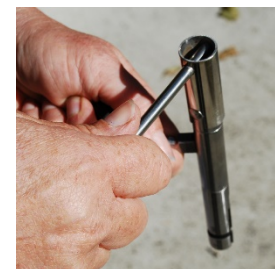

ONLY \$15.00 (+ p&p)

To prepare for shooting, simply place the bolt key
onto the rear of the bolt
and rotate until the bolt key handle lines up
with the bolt handle.

When shooting is finished, remove the bolt from the action,
replace the bolt key onto the rear of the bolt
and rotate back to the unloaded position.

The Match 64 bolt is held only by the bolt handle – this helps
eliminate corrosion.

The BOLT KEY works for both left and right hand actions.

Two designs available – fixed or removable head.
