Waist (2)	65	67	69	71	73	75		
Hip (3)	79	82	85	88	91	94		

When taking measurements for your jacket or trousers, you should pay attention to the following:

When taking measurements and especially when trying on a new shooting jacket or new shooting trousers, you should always wear your underclothes, including any vest or anything else that you normally wear under your jacket.

Please note that the measurements given alongside are only approximate. They are only intended as a guideline for determining your clothing size. The measurements you specify should under no circumstances be larger, but rather somewhat smaller than the actual measurements.

The finished jackets and trousers are larger than the measurements given here, since they incorporate the required tolerances in the overlaps.
