

# 54.30 BLACK PRECISE WALNUT

## Step by step to perfection.

For years, ANSCHÜTZ PRECISE small bore stocks have been appreciated by shooters around the world for their solid workmanship and excellent adjustment possibilities.

We always have an intensive exchange with our shooters and try to improve our products with help of the shooters experiences. These experiences and requirements have flowed into the optimized BLACK PRECISE WALNUT stock.

Equipped with the proven pistol grips from the ONE air rifle series, which can be adjusted in almost any direction, as well as the newly developed VARIO-palm rest 4844 on the fore-end allows an even better adjustment of the stock to your individual needs!

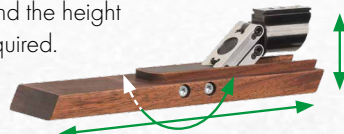

## Optimized for your success:

- The ONE-grip made of beautifully grown walnut offers versatile applications and can be brought even closer to the body due to the scalloped inner side.
- The new VARIO-palm rest 4844 can be infinitely adjusted in height, can be swiveled and moved as desired. The wood provides a natural feeling.

## NEW ► VARIO-palm rest 4844

The newly developed ANSCHÜTZ VARIO-palm rest 4844 offers the shooter even more features:

- Stepless height adjustment via the patented parallel adjustment - known from the ONE air rifles.
- Double-sided continuous swiveling of the hand support.
- Compatible on stocks with UIT rail on the fore-end.
- Integrated aluminum rail offers the possibility to adding a hand stop.
- Compatible with ONE-extendors (014662 and 014714), allowing you to expand the height of the palm rest as required.
